EXAMINER'S AMENDMENT

1. Applicant's election of Group III (claims 15, 16 and dependent claims 10-12, 20) in the reply filed on 10/27/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 1-8, 13-14, 17-19 have been cancelled.

Applicant's response that the restriction requirement and arguing that a restriction was not made earlier in the prosecution is none germane. A restriction can be made any time before during prosecution. Please see the relevant MPEP section:

37 CFR 1.142. Requirement for restriction.

(a) If two or more independent and distinct inventions are claimed in a single application, the examiner in an Office action will require the applicant in the reply to that action to elect an invention to which the claims will be restricted, this official action being called a requirement for restriction (also known as a requirement for division). Such requirement will normally be made before any action on the merits; however, it may be made at any time before final action.

The application has been amended as follows:

Claims 1-8, 13-14, 17-19 have been cancelled.
